

Nguyễn Trường Gia

.NET Developer

I'm a .Net Developer with 1 year of experience in C#.NET technologies, with good knowledge of Object-Oriented Analysis and Database Design, and Design Patterns.

I seeking a full-time position in the IT industry, working as a professional .Net developer, apply all of knowledge, skills, and understanding of software designing and developing to become a Professional Software Developer, and more than that to become a Solution Architect, and or become a Project Manager in the future
